

How to Make a Ballet Bun

- I. Start by combing the hair back into a neat ponytail.

2. Twist the ponytail tightly.

3. Twist around the elastic, tucking ends under the bun.

4. Holding the hair firmly, secure the hair all around the bun with bobby pins. Catch the edge of the bun with the pin and push in towards the centre, also catching the hair that lies along the scalp.

5 Remove hair net from package and stretch out fully with the hands.

6 Centre over the bun and pull up.

7 Twist the net and double over the bun. Wrap remaining net tightly around the bun.

8 Pins can be removed at this time for you to shape bun.

9 Re-pin the hair, this time securing the net and hair together.

**Congratulations!
You are ready for
ballet class.**
